Helpful Information for Summer Undergraduate Research Programs

Summer 2021

We are hopeful that summer undergraduate research programs will take place in person and on campus, but we are also planning for a remote summer if necessary. This guide will be updated as information becomes available or changes.

This booklet has been compiled to provide summer research program managers with useful information to help with budget planning and setting up program participants, particularly those from other universities, with campus-wide amenities. This information is also available on OUR website:

https://www.research.undergraduate.vt.edu/our-services.html#faculty

Appendix A  Summer 2021 VT Food and Lodging Rates
Appendix B  Criminal Record Disclosure Form
Appendix C  Participant Agreement (Sample)
1. Contact Information

If you have any questions about this manual, need support for a research program proposal, or need help with the planning phases of your program, please feel free to contact us:

Keri Swaby
Director, Office of Undergraduate Research

Loc: 104L Burruss Hall (MC 0717)
Ph: 540-231-7737
Email: kswaby@vt.edu
Web: http://www.research.undergraduate.vt.edu/

2. Participant Recruitment

The Office of Undergraduate Research (OUR) is happy to list your program on our website and post your announcement on our internal weekly VT listserv message. We strongly encourage you to post program information on the Handshake platform hosted by Career and Professional Development (C&PD), which will allow you to reach schools across the country, broadly or by your selection.

You will need to establish an account as an employer before posting. The platform is user-friendly and the C&PD staff are extremely helpful if you run into any issues.

Website: https://career.vt.edu/job-search/Handshake.html
Phone: 540-231-6776
Email: hireahokie@vt.edu

3. Budgeting for Participants

The NSF provides a guide for budget development during the proposal writing phase. Student stipends for summer projects are expected to be approximately $500 per student per week, in addition to other participant costs of room and board, fees, and travel, with academic-year stipends comparable on a pro rata basis. Total project costs are expected to be typically $800 to $1,000 per student per week. This is a guideline figure, neither a floor nor a ceiling, and is subject to change.
4. Housing and Meals

Typically, summer research programs, particularly REUs, secure on-campus housing and a meal plan for their non-VT participants who conduct research in-person and on campus. Academic groups staying 7 nights or longer that are sponsored by a university department and contribute to the academic mission of Virginia Tech will be charged at the reduced Summer School Academic Rates for housing and dining. This includes summer research programs. A meal plan must be purchased for each student staying on campus, per VT Policy 5010.

Options for accommodation and meal plans, and associated costs, are detailed in Appendix A. All rates are subject to a 5.3% sales tax. Non-profit organizations, departments, and government agencies in Virginia, including schools, are exempt from the 5.3% sales tax on meals. Housing rates are not tax-exempt.

There will be a charge of $6.00 per bed for de-bunking and re-bunking of beds.

Please keep in mind that you will be billed for the total number of guests present, or the final guarantee that is received by the office, at the published rate. Your final guarantee is due ten (10) business days prior to your check-in date.

Features of On-Campus Housing

- Housing is on par with hotel accommodations where linens, towels, etc. are provided and a free weekly linen exchange program is available.
- Students will be provided with free access to campus-wide guest WiFi. This is available on a 30-day cycle; to renew simply inform/remind Conference Services close to the 30-day mark.
- Residence Advisors are provided in residence halls as well as a 24-hour on-call coordinator.
- Convenient 24-hour check-in available at Conference & Guest Services in New Hall West.
- Room key can be programmed to access additional campus buildings, thereby foregoing the need to purchase a Hokie Passport for participants.
- Conference Services will make every effort to house research program participants in the same dorms (based on requested lodging type).

Each research program must establish an individual contract and directly pay for on-campus housing and the required meal plans. Contracts are secured through Conference and Guest Services, a division of Housing & Residence Life. To start the process, complete their online Conference Inquiry Form. If you are registering for the first time using StarRez, you’ll need to go to the bottom of the page and register using the “Conference Event Planners Register Here” link. If you set up an account last year, please use the username and password you used to create your account. If you forgot your password, you may click the “Get Log-in Credentials” link in the top left-hand corner. The online inquiry is not binding; it
simply provides Conference Services with valuable information to plan your event accordingly. They will do their best to honor your requests. Air-conditioned space on campus is scarce, and building assignments will be handled in the order received so you are encouraged to get your information in ASAP! It is advised that you submit the Conference Inquiry Form by the end of March at the absolute latest to ensure space availability for your participants.

Contact: Darryl McCallum, Assistant Director for Housing Administration
Email: dmccalu@vt.edu
Phone: 540-231-1792
Web: http://housing.vt.edu/conference.html

Behavioral Expectations (from Conference & Guest Services)

Conference & Guest Services does not directly supervise program participants. Programs are responsible for the conduct of all participants, guests, and adult staff members. Programs must ensure at all times that participants, guests, and adult staff members comply with University and CGS policies; applicable federal, state and local law; and the instructions of authorized University personnel. Willful disregard for the rights, responsibilities, and duties of others, interfering with a staff member engaged in the performance of job duties (includes, but is not limited to, verbal abuse, intimidation, or use of physical force), as well as the creation of circumstances that could jeopardize life, limb, or property are unacceptable.

It is the responsibility of Programs to ensure that all adult staff members are in compliance with all the Commonwealth of Virginia laws, rules, and regulations regarding programs for minors and have completed appropriate Title IX training.

Any individual who must register as a Sex Offender is prohibited from staying/residing in an on-campus residence hall or serving as a chaperone/adult staff member.

When submitting the group roster, all adult staff members will be noted/highlighted on the roster. Adult staff will advise each program participant of university rules and regulations, and act as a liaison between university staff and the campers or participants in the event of a discipline problem, and be responsible for their conduct.

Prohibited behavior by participants may result in the removal of the individual(s) from the University premises. In egregious cases where there is significant or widespread misconduct, at the discretion of the CGS leadership, the conference may be terminated early. In the event an individual or group is asked to leave the university premises due to misconduct, no refund shall be due. The Client shall be responsible for ensuring the safety and transit home of adult staff, guests, or participants removed from the university premises.
No alcohol is allowed in public spaces. Alcohol is permitted in dorm rooms only if all occupants of the room are 21 years or older.

Service animals will be permitted in dorms ONLY if prior approval is secured from the Services for Students with Disabilities (SSD) Office (https://www.ssd.vt.edu/physical_access/service_animals.html).

5. Criminal Record Disclosure

All non-VT program participants are required to complete and submit a criminal record disclosure form, attached as Appendix B, before they are admitted to campus. Forms should be collected by program managers and then forwarded to Keri Swaby (ph: 540-231-7737; email: kswaby@vt.edu; Address: 104L Burruss Hall, MC 0717) in the Office of Undergraduate Research, where they will be kept on file.

6. Participant Agreement

You may choose to have program participants read and sign some form of participation agreement. The OUR Advisory Board has put together a participant agreement that has been vetted by VT Legal and is available for adaptation and use by individual programs. The approved agreement is legally binding and will help to ensure that students understand the expectations and requirements for participation in your summer research program. A sample is included in Appendix C. Program directors should contact Keri Swaby (email: kswaby@vt.edu) for an editable electronic version of this document.

7. Paying Students

Undergraduates participating in summer research programs are paid through a "fellowship". A fellowship payment generally is an amount paid for the benefit of a student to aid in the pursuit of study or research. Students receiving fellowship payments are not required to work in order to receive these payments. Fellowships provide support for training opportunities pursued outside the normal curriculum whereas scholarships provide support for completion of undergraduate education. According to the IRS, a scholarship is generally an amount paid or allowed to a student at an educational institution for the purpose of study. A fellowship is generally an amount paid to an individual for the purpose of research. Details on what qualifies for this category can be found at the website: https://www.controller.vt.edu/content/dam/controller_vt_edu/procedures/payroll/23800.pdf.

If you have questions about fellowships, please contact:
Undergraduate fellowships are disbursed in a special way. Use the Fellowship Information Supplement form, Form P-12F, to collect relevant information necessary to disburse fellowship payments:

http://research.undergraduate.vt.edu/content/dam/research_undergraduate_vt_edu/P-12F.pdf

Each student should complete and submit a P-12F form, which must be kept on file. Detailed instructions for processing undergraduate fellowships (PAFs) have been compiled here:

https://www.research.undergraduate.vt.edu/resources/resources-faculty/undergraduate-fellowships.html

Please note that PAFs must be submitted well before the published deadlines to allow time for approvals from both your department and the Office of Undergraduate Research. 2021 deadlines are listed on this link:

https://www.controller.vt.edu/content/dam/controller_vt_edu/resources/payroll/payschedules/2021/2021-Payroll-Calendar-Fellowship.pdf

Because the system does not alert approvers when a new PAF is submitted we request that you send an email to Keri Swaby (kswaby@vt.edu) to let us know they are pending.

If you have any questions or problems processing undergraduate fellowship PAFs, please contact the Human Resources Service Center (ph: 540-231-9331; email: hrservicecenter@vt.edu).

8. International Students

If your program allows participation of international students then follow the instructions for paying students. In addition, international students will need to produce the following original documents to the program coordinator/manager or person processing the PAFs:

- Passport
- Visa
- I-94 card
- I-20 or DS2019
- Social Security Card or ITIN

These original documents must be reviewed and copied, with copies retained in the program file.
9. Taxes

Federal and state income taxes are NOT withheld from fellowship payments (unless the recipient is an international student) and so students will **NOT** receive a W2. It is the student’s responsibility to report these earnings on their annual tax return, in a similar way to declaring tips. **For international students only,** Virginia Tech will issue a bill for these taxes, in the amount of 14% of the overall award, at the end of the summer or fall semester. Failure to pay this bill will result in a hold on the student’s record.

10. VT Username

A VT Username, formerly referred to as a PID, is a unique personal identifier at Virginia Tech. A student's VT Username and passphrase will grant them access to Virginia Tech services such as WiFi, Canvas, library databases, etc. Your students can create their own VT Username once they have been issued an employee/student number through Banner (when they are put into the payroll system to receive their fellowship). Students will not know this number so please be sure to provide it to them. After they receive this number, students can go to [https://onboard.it.vt.edu](https://onboard.it.vt.edu) to create their VT Username. Afterwards, they can navigate to [https://onecampus.vt.edu](https://onecampus.vt.edu) to manage their information and navigate to other services at Virginia Tech.

11. WiFi

For students not staying on campus with a contract through Conference and Guest Services, wireless access must be formally requested for each guest on campus, at the expense of the sponsoring department/program (departments will need to submit an ICR). The cost for guest access to WiFi is about $10 per month per student (subject to change). This is handled through the Network Infrastructure & Services (NI&S) website: [https://guestmanager.cns.vt.edu/guest/launch.php](https://guestmanager.cns.vt.edu/guest/launch.php). Your department likely already has a department network liaison (list available here: [http://groupw.cns.vt.edu/~benchoff/cgi-bin/ipr-dump-wrapper.cgi?style=wwr](http://groupw.cns.vt.edu/~benchoff/cgi-bin/ipr-dump-wrapper.cgi?style=wwr)) who is responsible for approving such requests. If not, you can sign up on the COLA system, to gain approver rights in the system. You can then set up each of your students from the same portal or have students request WiFi access themselves. In order to do this, students will need to have a valid PID. Students may use their personal email addresses to access WiFi, but it is strongly advised that they set up their PID first and use this to set up their WiFi instead. Answers to many FAQs can be found on the NI&S website: [https://www.nis.vt.edu](https://www.nis.vt.edu).
12. Hokie Passport

Students can get a Hokie Passport from the Hokie Passport office (Student Services Building, Suite 100) at a cost of $25 per card. If your department does not provide for this expense, students will need to pay out of pocket, via cash or check. If your program/department will cover the expense of the cards (via ISR), please send a list of student names to the Hokie passport office before sending your students to get their ID cards. Students will need to produce one form of government issued photo ID (driver’s license, passport, etc) in order to get their Hokie Passport. Please note that the Hokie Passport issued to non-VT students does not have any privileges attached. It cannot be used to access the gym facilities, health services, or the bus system. You might elect to get a Hokie Passport for students who need to gain swipe card access to buildings or labs, however, please note that access cards (room keys) issued by VT Conference Services can be programmed to include building/lab access. For more information, visit the Hokie Passport webpage at: https://secure.hosting.vt.edu/www.hokiepassport.vt.edu/index.php.

13. Parking Pass

Students parking on campus must have a permit to avoid being ticketed. Parking passes are available at the VT parking office for the duration of the student’s stay on campus. Program managers should send a list of visiting student names to the parking office before sending students. Students will need to bring a copy of their vehicle registration and driver’s license in order to receive their parking pass. If this expense is not covered by your program/department, then students will need to pay for their permit out of pocket.

2021 Summer Parking Rates

- Resident students (VT students living on campus): $144 (R permit)
- Commuter students (VT students living off-campus): $90 (C/G permit)
- Non-VT students: $121 (F/S permit)

These prices are subject to change. For more information and most current rates, please visit VT’s Parking and Transportation page: https://www.parking.vt.edu/.

14. Library Access

Access to VT’s library is not restricted but students will need an appropriate form of ID to borrow books, such as a valid VA driver’s license (or DMV identification card) or photo ID from another VA institution. If students have secured a Hokie Passport, they may activate this card to allow them to borrow books. In order to do this, please send the name of the group sponsor, the duration of the program (for an expiration date on the borrowing account), the PI or program coordinator’s name, and for each student:
name, Hokie Passport number, and address, to Jessica Ofsa (ph. 540-231-9273; email: jofsa@vt.edu). If the student does not have a Hokie Passport, a library card can be issued to the student free of charge; please send the same information (less Hokie Passport ID number) to Jessica Ofsa. Please note that these library cards will be issued as an extension of the PI/program coordinator’s account, who will carry all liability for late or lost books.

Students may access the library’s electronic resources, such as databases, using their assigned PID. If students have any issues they should consult their program manager to ensure that they have a VT-ACTIVE-MEMBER status in Banner.

If students need printing services, they can purchase a print card in any amount at the Newman Library.

**15. Gym Access**

McComas Gym will be open and available to students on a contract through Conference and Guest Services this summer. There will be limits to the number of people allowed in the gym at one time, so students may be asked to pre-register for time slots. Research students living on campus will also have access the small gym in Ambler Johnston residence hall.

In order to access any VT gym facility, students will need an appropriate swipe card. Cards should be requested from Recreational Sports.

The rate to use McComas Hall facilities is $50/summer session. If this is a budgeted expense for your summer program, Recreational Sports can invoice your program directly. If this is not covered by your department/program, students will need to pay out-of-pocket.

**Contact:** Taylor Schiller, Membership Services Manager, Recreational Sports  
**Email:** Tschill2@vt.edu  
**Phone:** 540-231-7435

**16. Public Transportation**

The Hokie Passport issued to non-VT students will NOT provide access to the Blacksburg Transit bus system, therefore these students are required to pay to ride the bus (adult fare = $0.50). If you would like to provide public transportation access to your participants, you may purchase bus passes from the Town of Blacksburg at the Blacksburg Municipal Building, Christiansburg Town Hall, Christiansburg Aquatic Center, or the Christiansburg Recreation Center for the duration of your program. The cost for passes is $8 per month per student (subject to change) and may be paid by cash, check, or p-card, provided you inform the Controller’s office beforehand. For more information, please visit the BT website: [https://ridebt.org/](https://ridebt.org/).
17. Health Services

*Only currently registered/enrolled VT students are entitled to access VT health services.*

If your program wants students to have access to Schiffert Health Center or Cook Counseling Center when they are on campus, you may purchase American Income Life, which offers a secondary insurance that covers accidental illness and injury. This is administered through Risk Management (ph: 540-231-7439). The cost for this insurance is $0.30/person/day, payable at the end of the summer program, through HokieMart. The “trick” to being eligible for this insurance is that programs must be labeled as “summer camps”. In order to set this up, please contact the staff member who handles your contract.

However, please consider that many students will have health insurance from their parents or home institutions, so the easiest route for them will be seeking healthcare from Velocity Care, a walk-in urgent care clinic located at the North End Center at 215 Gilbert St. in Blacksburg, which accepts many different forms of health insurance. Please visit their website for further information: [https://velocitycarebycarilion.com/blacksburg-urgent-care](https://velocitycarebycarilion.com/blacksburg-urgent-care).

18. Required Training for Student Researchers

The Office of Scholarly Integrity and Research Compliance manages training programs and tracks training compliance at Virginia Tech. Specific information about the office and various programs and training they offer can be found on their website: [https://www.research.vt.edu/sirc.html](https://www.research.vt.edu/sirc.html).

**Conflict of Interest (Col) Training**

*All* undergraduates participating in research at Virginia Tech are required to complete Col training. This can be done online: [https://www.research.vt.edu/coi/training.html](https://www.research.vt.edu/coi/training.html).

It is strongly recommended that all students complete training BEFORE arriving on campus or, in the case of students conducting remote research, before engaging in any research activities. Upon completion of Col training, students are requested to print a copy of their completion certificate and give it to their program coordinator/manager.

Please alert your students to the training requirements and, for non-VT students, provide them with the 6-digit grant number from which they will be paid as well as their employee (VT ID) number, which will be generated once they are entered in Banner. With these two pieces of information, the Office of Research will be able to track your participants to ensure compliance and reduce the risk of having your grant suspended.

Please contact the Research Conflict of Interest Program (ph: 540-231-9376; email: coi@vt.edu) with any questions about the Col program or requirements.
Responsible Conduct of Research (RCR) Training

All participants in NSF, NIH, and USDA(NIFA)-funded research programs are required to complete RCR training. **It is strongly recommended that all students complete RCR training before arriving on campus or, in the case of students conducting remote research, before engaging in any research activities.** The Office of Research will flag your grant if it is funded by any of these agencies. Failure of all program participants to complete RCR training before the end of the second week of any summer research program may result in a freezing of program funds (for the entire program) by the Research Integrity Office. More information on the specific training requirements by grant agency are available online: [https://www.research.vt.edu/research-integrity-office/responsible-conduct-research.html](https://www.research.vt.edu/research-integrity-office/responsible-conduct-research.html)

For questions or more information on this program please contact Kory Trott, Research Integrity Officer (ph: 540-231-6451; email: ktrott@vt.edu).

Other Training

Students should be provided with additional training in health and safety and procedures specific to their project and environment, as determined by their faculty mentor. In addition, students must be added to any relevant protocols related to IRB, IACUC, IBC, etc. More information and contact information for these training programs and protocol requirements are available online: [https://www.research.vt.edu/sirc.html](https://www.research.vt.edu/sirc.html)

19. Suggested steps: setting students up for the summer
20. Summer Calendar

The 2021 Summer Research Period will be May 24 through July 30, 2021. The OUR will maintain a summer calendar on its summer webpage listing all social and professional events and activities, both in-person (if allowed) and virtual. Unless otherwise indicated, all activities are open to any undergraduate summer researcher, free of charge:

https://www.research.undergraduate.vt.edu/summer-research-vt/student-support.html

21. OUR Summer Programming

The OUR offers programming throughout the summer, both professional and social. OUR will host a virtual half-day orientation session open to all undergraduate summer research students on May 25. This session will set the tone for the summer, allowing participants to meet other researchers, and gain general information, such as Health and Safety training, logistics, and expectations for the summer research period. The orientation is a free and optional service provided by the OUR.

Again this year, in collaboration with University Libraries, we will offer an optional asynchronous self-paced 6-module virtual training series throughout the summer that will provide students with the building blocks to engage in research. Modules include: Becoming a Researcher, Using Data and Information Ethically, Managing and Organizing Data, Managing and Organizing Information, Writing Successful Proposals, Abstracts & Titles, and Sharing Your Research. Students can earn a certificate of completion and list this series on their resume.

A weekly professional development seminar will be offered each Wednesday, 4-5 p.m., which is open to any summer undergraduate research participant. Seminar topics usually include Ethical Use of Data, Writing Personal Statements, Writing Abstracts and Proposals, Creating Effective Posters, Presenting Research, and Graduate School panels, from a faculty and student perspective. These sessions will be offered in a synchronous virtual format, via zoom, and if allowed, include an in-person option. These seminars will complement the modules being offered through the training course, in timing and content.

Program Directors are encouraged to inform students of these opportunities and to allow them to participate in these free co-curricular events that will add to the students' overall summer research experience.

22. Peer Mentors

Each summer the OUR hires a number of student peer mentors to help build a summer research community and facilitate summer activities. Whether in-person or remote, peer mentors are available throughout the summer to offer support to research programs (for example, accompanying students to
get parking passes and IDs at the start of the summer), and to advise students. They also plan regular (weeknight and weekend) virtual and in-person social activities to engage summer visitors and showcase the area surrounding Blacksburg. Most activities are free and, for in-person activities, transportation is provided for any off-campus activities. Past activities have included virtual game nights, a cooking competition, cookouts, local hikes, tubing on the New River, visiting the Roanoke Star, volunteering at the NRV Humane Society, berry picking, and the like.

23. Summer Symposium

The OUR will host its annual campus-wide undergraduate research symposium on July 29, 2021. Summer research participants are invited to present their work in poster format. The conference is free of charge. Conference details and abstract submission form will be available at the start of the summer:

https://www.research.undergraduate.vt.edu/summer-research-vt/student-support/summer-research-sym.html

Should health and community guidelines allow for large gatherings, this symposium will be offered in person. If not, we will host an virtual event as we did last summer, where students will record short research video presentations and will engage in real-time with symposium attendees via a discussion board.
APPENDIX A

Summer 2021

VT Food and Lodging Rates
Lodging rates below are listed per person, per night. Meal rates are listed per person, per meal:

<table>
<thead>
<tr>
<th>Summer Conference Lodging Rates</th>

<td>Prorated Summer School Meal Plan</td>
</tr>
</tbody>
</table>

**All rates are subject to a 5.3% sales tax.** Non-profit organizations, departments, and government agencies in Virginia, including public schools, are exempt from the 5.3% sales tax on meals. Housing rates are not tax-exempt.

There will be a charge of $6.00 per bed for de-bunking or re-bunking of beds.

*Please keep in mind that you will be billed for the total number of guests present, or the final guarantee that is received by our office, at the above rates. Your final housing and dining guarantee numbers are due ten (10) days prior to your check-in date.*
Conference Guests Testing Requirement

- Each group coming to campus will need to have participants submit verification to the group sponsor of a negative COVID-19 test received with 72 hours of arrival.
  - In the future, we may be able to accept proof of full vaccination, but at this point, our guidelines will require testing. CGS will notify sponsors if anything changes.
- Group members will be advised to self-quarantine from the time immediately following their COVID test until their arrival on campus.
- Sponsors will be required to sign a form that states they are responsible for collecting and maintaining records of COVID materials.
- Schiffert Health Center will not be available to non-students/conference guests. Summer conference groups will be advised to seek treatment from Velocity Care or other urgent care providers in the area. Additional information for REU groups will be shared with group leaders soon.

Conference Guests Masking/Distancing Guidelines

- All short-term conference guests will reside in single occupancy rooms; although for summer 2021, these rooms would be charged at the lower multiple-occupancy rate.
- Appropriate facial coverings are required when outside of assigned residence hall room. Facial coverings will also be required in any gathering of 2 or more people not sharing the same residence hall room. This includes individuals who have previously tested positive for COVID and those who have had a vaccination.
- When gathering in groups of 2 or more people (inside or outside), physical separation of at least 6 feet, but not replacing the mask requirement.
- Exceptions for masking include eating while seated in a dining center or when in the bathroom/shower; however, while moving within those areas, guests must use a facial covering.
- Conference sponsors are responsible for creating and regulating events and programs matching university, health department, and other regulatory body requirements.

Dining Operations

- Guests will be scheduled breakfast, lunch, and dinner periods to reduce crossover/congestion with summer school residents and between groups. Groups must maintain this schedule.
- Guest dining will be controlled by ID cards. ID cards will be sanitized before distribution. The cards use barcodes and dining staff will use no-touch barcode readers to reduce contact.
- Dining operation location will be determined by demand. Menus will be designed to allow for proper COVID restrictions and standards and will likely impact offerings associated with years past.
- All self-service food stations will be removed and all food items will be served by dining employees. Beverage stations would be available for guests to dispense their own beverages.
- Dining cleaning protocols currently in place would continue into the summer and would be adjusted to align with current VDH and CDC recommendations.
2021 Residence Hall Cleaning

- Housekeeping staff will be cleaning restrooms and high touchpoint areas such as elevator buttons, water bottle filling stations, and door handles multiple times a day.
- To reduce the risk of exposure to COVID, residence hall rooms and common spaces will be left vacant between groups for at least 48 hours to ensure ample time for cleaning.
- Before, during, and after each conference, housekeeping staff will provide cleaning of bathrooms, hallways, lobbies, lounges, and other high traffic/high touchpoint areas within the residence halls.
- Hand sanitizing stations have been placed near all residence hall entrances and elevators.
- Should a guest become ill, a full sanitization protocol will be enacted in the affected area.

Conference and Guest Services Information

- Due to physical distancing guidelines, especially in our dining halls, the number of camp/conference participants will be limited to 900 guests at any given time.
- The Hospitality Desk will be moved from New Hall West to a location yet to be determined.
- CGS will not provide linen or pillows for the summer 2021 season. One-time use, eco-friendly bed linen could be made available at the expense of the conference. If this option is selected, a per-person charge of $20 would be added per guest. This option is for short-term guests. For long-term guests (more than 1 week), we suggest that you bring extra-long twin sheets (fitted) or flat sheets for use as the eco-friendly bed linens are not designed for long-term use.
- Residence hall room access cards will be disinfected by CGS before and after each use.
- Conference housing and dining will open on 23 May
- Conference operations other than the German Fulbright Institute must be completed by 1 August to allow for summer-to-fall cleaning and transition. REU Groups will need to be completed by 8 August.
- Hospitality Desk will have reduced in hours with an on-call structure in place when the desk is not in operation.
- There is a chance that individual conferences or all conferences could be canceled with little warning based on governmental and regulatory body actions or university decision.
- Parking Services will no longer offer free parking passes to summer camps and conferences. If the sponsor chooses, CGS will work with Parking Services to secure parking passes for the group and will pass on parking fees in the master bill.
APPENDIX B

Criminal Record Disclosure Form
Note: By submitting this form you are stating that all supplied information is correct. If any information is proven to be false, you will be subject to disciplinary action through the Virginia Tech Disciplinary System.

Applicant/Volunteer Last Name __________________________________________________
First Name _________________________________________________________
Middle Name _________________________________________________________
Date of Birth (mm/dd/yyyy) _____________________________________________
Address _____________________________________________________________
City _________________________________________________________________
State ________________________________________________________________
Zip Code _____________________________________________________________

APPLICANT/VOLUNTEER CRIMINAL RECORD INFORMATION
(check one; print clearly)

I HAVE BEEN convicted of, or under pending charge(s) or indictment(s) for the following crimes either within or outside the Commonwealth of Virginia. List all charges; use an additional form if necessary.

1) Charge ___________________________________________________________
Felony or Misdemeanor (circle one)
Date ________________ Jurisdiction (county & state)____________________________
Disposition ______________________________________________________________

2) Charge ___________________________________________________________
Felony or Misdemeanor (circle one)
Date ________________ Jurisdiction (county & state)____________________________
Disposition ______________________________________________________________

I HAVE NOT BEEN convicted of, or under pending charge(s) or indictment(s) for any crimes either within or outside the Commonwealth of Virginia.

By virtue of submitting this form I certify the name, address, personal descriptive information and criminal record disclosure is accurate as submitted. I am apprised of the right to obtain and/or challenge the accuracy/completeness.

APPENDIX C

Participant Agreement
(Sample)
Summer Research Program Participation Agreement

Congratulations on being accepted to the 2020 **** summer research program.

Provide some background on program/goals/vision

In order to participate in the summer research program, you must complete this participation contract, to indicate that you understand and agree to the policies and expectations of the program. Please place a check in each box below to indicate that you have reviewed and understand each item. If you have any questions or are unclear on any of the terms listed, please contact *** before submitting the agreement.

IMPORTANT: If you violate any of the items listed in this agreement or any Virginia Tech policy during your participation in the summer research program between May 26 and July 31, 2020, you may be asked to leave the program. In cases deemed reparable by the Program Director, you will be asked to meet with the Director to discuss the issue. An agreement will be made between you and the Director regarding how to approach resolving any issues. If the secondary agreement is not upheld, you may be asked to leave the program immediately, including moving out of the residence hall and ceasing your research project. Your fellowship payments will cease immediately and you will be responsible for any expenses related to terminating your lease early or traveling from Virginia Tech. You may also be referred to the Honor System or Student Conduct at Virginia Tech or your home institution depending on the violation.

Page 1 of 3
Participation agreement regarding program policies

Check each box to indicate you have reviewed and understand each item.

As a participant in ** REU, I understand that I will be expected to:

☐ arrive at Virginia Tech before the start of the program on May 26, 2020, in accordance with information and guidelines provided by the Program Director;

☐ attend and participate fully in the orientation session on May 27, 2020;

☐ attend and actively participate in all professional development and training opportunities provided to me by the program director;

☐ meet weekly with my research mentor (PI or graduate student) to discuss my progress;

☐ actively participate in research and program activities each weekday between 8am and 5pm, inclusive;

☐ be physically present in Blacksburg for the 10-week program;

☐ present the results of my summer research at the VT Summer Research Symposium on July 30, 2020;

☐ voice concerns directly to the leadership team and/or my faculty mentor so that problems may be resolved in an efficient and timely manner;

☐ be a "self-starter" willing to ask questions, seek answers, and work within typical scientific uncertainty;

☐ be open to bi-directional communication and collaboration with other fellows, graduate students, and faculty from different disciplinary and academic backgrounds;

☐ be professional and gracious when working with others of different personalities and social identities;

☐ room in a traditional residence hall with another program participant as roommate;

☐ engage fully in the summer research program, which means that I will NOT enroll in any classes (in person or online) or participate in additional paid activities (job).
Participation agreement regarding Virginia Tech policies

Check each box to indicate you have reviewed and understand each item.

As a participant in the ** REU program, I understand that I am expected to:

☐ Adhere to Virginia Tech policies and State Law including abstaining from underage alcohol consumption and possession or consumption of controlled substances. Violating this policy can result in probation and ultimately expulsion from the program. Also, my violations may be referred to the Honor System or Student Conduct Office at Virginia Tech or my home institution.

☐ Behave in a manner that is not disruptive to peers in the program or other residents in the dorm.

☐ Abstain from participation in any form of violence or intimidation (this includes, but is not limited to, fighting, unlawful possession of weapons, and/or planning acts of violence).

☐ Avoid any acts of discrimination (this includes making slurs or negative remarks, participating in harassment, etc based on race, gender, sexual orientation, economic status, or disability status), as outlined in Virginia Tech Policy 1025.

☐ Assign all Intellectual Property rights related to my research project to Virginia Tech, in accordance with Virginia Tech Policy 13000.

I have read and understand the *** REU Participant Agreement. I understand that violation of this agreement may result in corrective action and possible removal from the program, including removal from housing, cessation of all program related research activities, and discontinuation of my fellowship payments.
