Hello, we hope your Spring 2022 semester is off to a great start! We look forward to bringing you even more in 2022!

This newsletter features a call for student applications for a prestigious conference (all expenses covered) and a call for nominations for the Astronaut Scholarship, a recruitment event and a mentoring network that might interest your department, a program that increases diversity in the geosciences communities, and opportunities for students considering doing summer research. And don't forget to let us know what you think about the newsletter by taking the quick survey at the end of the newsletter!
(3 minutes read)

In today's edition:
1. Invite Your Undergrad Researchers to Present at Annual ACCMoM Conference
2. Call for nominations - Astronaut Scholarship
3. Become an Exhibitor for The 2022 National Conference on Undergraduate Research
4. National Research Mentoring Network
5. AGU Bridge Program for Geosciences Communities
6. More Opportunities for Students

1. Invite Your Undergrad Researchers to Present at Annual ACCMoM Conference
We would like to invite your stellar undergrad student researchers to apply to represent Virginia Tech and present their research at the upcoming Atlantic Coast Conference (ACC) Meeting of the Minds Conference. All majors are welcomed! All expenses are paid by the ACCAC. Click here to learn more about the program.

Student Application deadline: Jan. 31, 2022, at 5 pm
Faculty Endorsement deadline: Feb. 2, 2022, at 12 pm

2. Call for Nominations - Astronaut Scholarship
Astronaut Scholarships are awarded to college students studying science, technology, engineering, or mathematics with the intent to pursue research or advance their field upon completion of their final degree. Astronaut Scholars are among the best and brightest minds in STEM who show initiative, creativity, and excellence in their chosen field. For more information about the application process and eligibility, please visit the National Scholarship Page on the Honors College website. If you have any questions about a student's eligibility please contact cmcintyre@vt.edu. You can nominate students by filling out the nomination form. Faculty Nomination Deadline is Feb. 15, 2022.

3. Become an Exhibitor for The 2022 National Conference on Undergraduate Research
Prestigious students presenting their scholarly research at National Conference on Undergraduate Research (NCUR) are also looking to connect with their future - and what does their future hold? It could be a place within your graduate school programs, as a research participant, a new employee, or a published author in your journal. Hear from prospective students on what they are looking for, share your requirements and possibilities you can offer them, and be able to advertise your programs to over 3,500 interested attendees. Click here to learn more about the program.

4. National Research Mentoring Network
Connect with other students and researchers for anything from general questions about research and professional development as a scientist via the National Research Mentoring Network.

5. AGU Bridge Program
The AGU Bridge Program offers underrepresented students the opportunity to attend institutions that are looking to help them continue their academic education in geoscience Master’s and Ph.D. programs. The program provides students an alternative pathway to graduate school admission by giving them access to a common application system. Click here to learn more about the program. We hope that you will support this effort by encouraging eligible students to apply from your own departments or research groups within or outside of your institution.
6. More Opportunities for Students
We post undergraduate-research-related opportunities for students every week on our weekly newsletter. Please click here to see all we have to offer.
