POH 2021 will take place virtually but will include the critical elements of a traditional POH signature event, including opportunities to virtually meet with members of Congress, resources on advocacy for undergraduate research, and a virtual poster showcase.

POH 2021 will take place in the springtime as usual, with key dates being announced once the 2021 congressional calendar has been released. POH 2021 will not overlap with NCUR or individual graduation activities. **Abstracts will be accepted until January 22, 2021. Submit yours today >>**

2. 2021 NSF-REU opportunity: Interdisciplinary Research in Behavioral Sciences of Transportation Issues at Old Dominion University

The NSF-funded Research Experiences for Undergraduates (REU) sites at Old Dominion University (ODU) is inviting applications for summer 2021. The program will offer training in hands-on research skills as well as instruction in graduate school applications and career pathways in interdisciplinary transportation fields. 3. **Seeking Student Volunteers to Participate in a Survey about their Experiences Presenting Research**

Have you presented or will you present results of your research, creative, or scholarly work at a student symposium this fall? We are particularly interested in hearing from any student that presented at one of the many virtual conferences that are being organized and run during the Era of COVID-19. The survey takes approximately 5 - 15 minutes to complete.

**Survey Link:** [survey.fgcu.edu/Learning-from-Presenting.aspx](https://survey.fgcu.edu/Learning-from-Presenting.aspx)

This project started at the 2018 CUR Biennial when Linda Blockus from the University of Missouri brought together a group of people into a CUR Dialogical Working Group to explore what (if any) learning gains students experienced after presenting their research at a conference or student symposium. The dialogical was extremely fruitful. We first identified possible learning gains that students might be expected to gain from the experience (e.g., communicating with a general versus specialized audience; defending an idea, and processing criticism) as well as a survey instrument to assess what students may learn, which has received IRB approval (FGCU Protocol ID# 2019-60).
