

Undergraduate Research Opportunities....

1.) 2020 Global Change Center Undergraduate Science Policy Fellowship.

In partnership with the Virginia Tech School of Public and International Affairs, the Global Change Center will provide funds to send an undergraduate student to the [Washington Semester, Leadership through Policy and Governance](#) 2020 summer program.

The selected student will be partnered with a public, private or non-profit organization for a unique 11-week immersion into work experience to the nation's capital. While obtaining academic credit, students in the Washington Semester program join efforts to address challenging science policy issues that shape communities locally and nationally. The GCC Science Policy Fellowship is designed to support a unique track for **science and engineering majors** who are specifically interested in the science-policy interface.

Application deadline is December 1, 2019. More information and application materials can be found online at: <https://www.globalchange.vt.edu/spf/>. Flyer is attached.

2.) 2019-20 Global Change Center Undergraduate Research Grants.

The Global Change Center at Virginia Tech, with support from the Fralin Life Sciences Institute, is proud to sponsor undergraduate students and their research projects that align with our mission for advancing collaborative, interdisciplinary approaches to address critical global changes impacting the environment and society.

Projects that addresses basic and/or applied aspects of global change science, engineering, social science and the humanities are applicable for this funding opportunity, and proposals must include strong endorsement by a [GCC-affiliated faculty member](#).

Award requests can range from \$250 - \$1,000.

Application deadline is December 19, 2019. More information and application materials can be found online at: <https://www.globalchange.vt.edu/undergraduate-research-grants/>. RFP is attached.
