3. Approaching Deadlines for Undergraduate Opportunities

Have a great week!

1. **Clare Booth Luce Scholars Program – TODAY!**
   VT’s Multicultural Academic Opportunities Program (MAOP) is fortunate to receive a generous grant from the [Clare Boothe Luce Program](https://www.maop.vt.edu/Undergraduate_programs/Luce_Scholars1.html) to support up to eight female undergraduates with research funding for the summer and following academic year. The goal of the program is to assist in diversifying the fields in the physical sciences and engineering and to encourage women to pursue research careers in those fields.

   Selected students will receive a full-time, 10-week summer research experience with a $7,250 stipend in the summer and $500/month stipend in the 2019-2020 academic year; research and graduate school preparation activities in the summer and during the academic year; and networking and mentoring opportunities throughout the program.

   Students in the following disciplines are eligible to participate in the program: Aerospace, Chemical, Civil, Computer, Computer Science, Electrical, Environmental, Industrial and Systems, Materials Science, Mechanical, Mining and Minerals, and Ocean Engineering; Engineering Science and Mechanics; and Chemistry, Geosciences, and Physics.
